

## **AC&O – Advanced Control & Optimization Users Group Worldwide User Conference Highlights**

May 4-7, 2009  
Houston, Texas USA  
Marriott Woodlands Waterway Hotel

<http://www.aspentech.com/uc2009/>

Join us at the Worldwide User Conference (UC) within the AC&O technology area. The event will include AspenTech and Customer presentations.

### **Confirmed speakers include:**

- **Dow** – Real Time Optimization in Ethylene Plants
- **CPChem** – Process Monitoring Information from On-Line Optimization Models
- **Chevron** – Aspen Watch for the Multi-Tasking Practitioner
- **Total** – Implementation of DMCplus on Two Parallel Polypropylene Lines
- **Texas Tech University** – Modeling, Identification and Control of Complex Systems
- **Marathon Oil** – A Rotation Factor for Steady State Variables
- **University of Houston** – Optimization-based Test Signal Design for MIMO Identification
- **BP** – Texas City PX1 and PX2 DMCplus Revamp

### **General Sessions**

- Systems Issues & Best Practices
- Update on the Training Strategy for APC Products
- AC&O business meeting including voting for new board members
- Meet the Experts
- Solution Center – see V7.1 in action

### **Other Topics from AspenTech Product Management and Development**

- V7.1 Overview
- V8 Roadmap
- V7.1 New Feature Training
