## **BOOST PRODUCTIVITY** with Cloud Deployment of aspenONE<sup>®</sup>ENGINEERING

With cloud-enabled deployment of aspenONE Engineering, all your engineers have anytime, anywhere access to the latest software and innovations. Enjoy easier management, more scalability, better security and lower cost — without sacrificing functionality for your engineers.

Quick Deploy the latest version to your entire user base quickly.

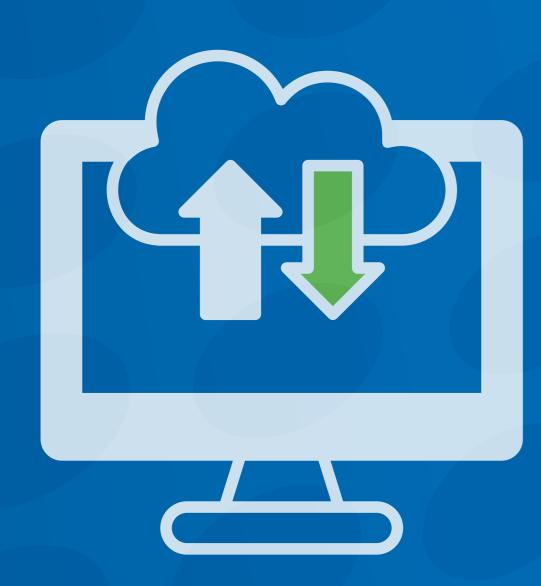

## Collaborative

For the first time, enable multiple users to work simultaneously on the same model or project with Nutanix<sup>™</sup> Frame deployment.

## Productive

Boost productivity with anytime, anywhere access to the industry's leading engineering software suite.

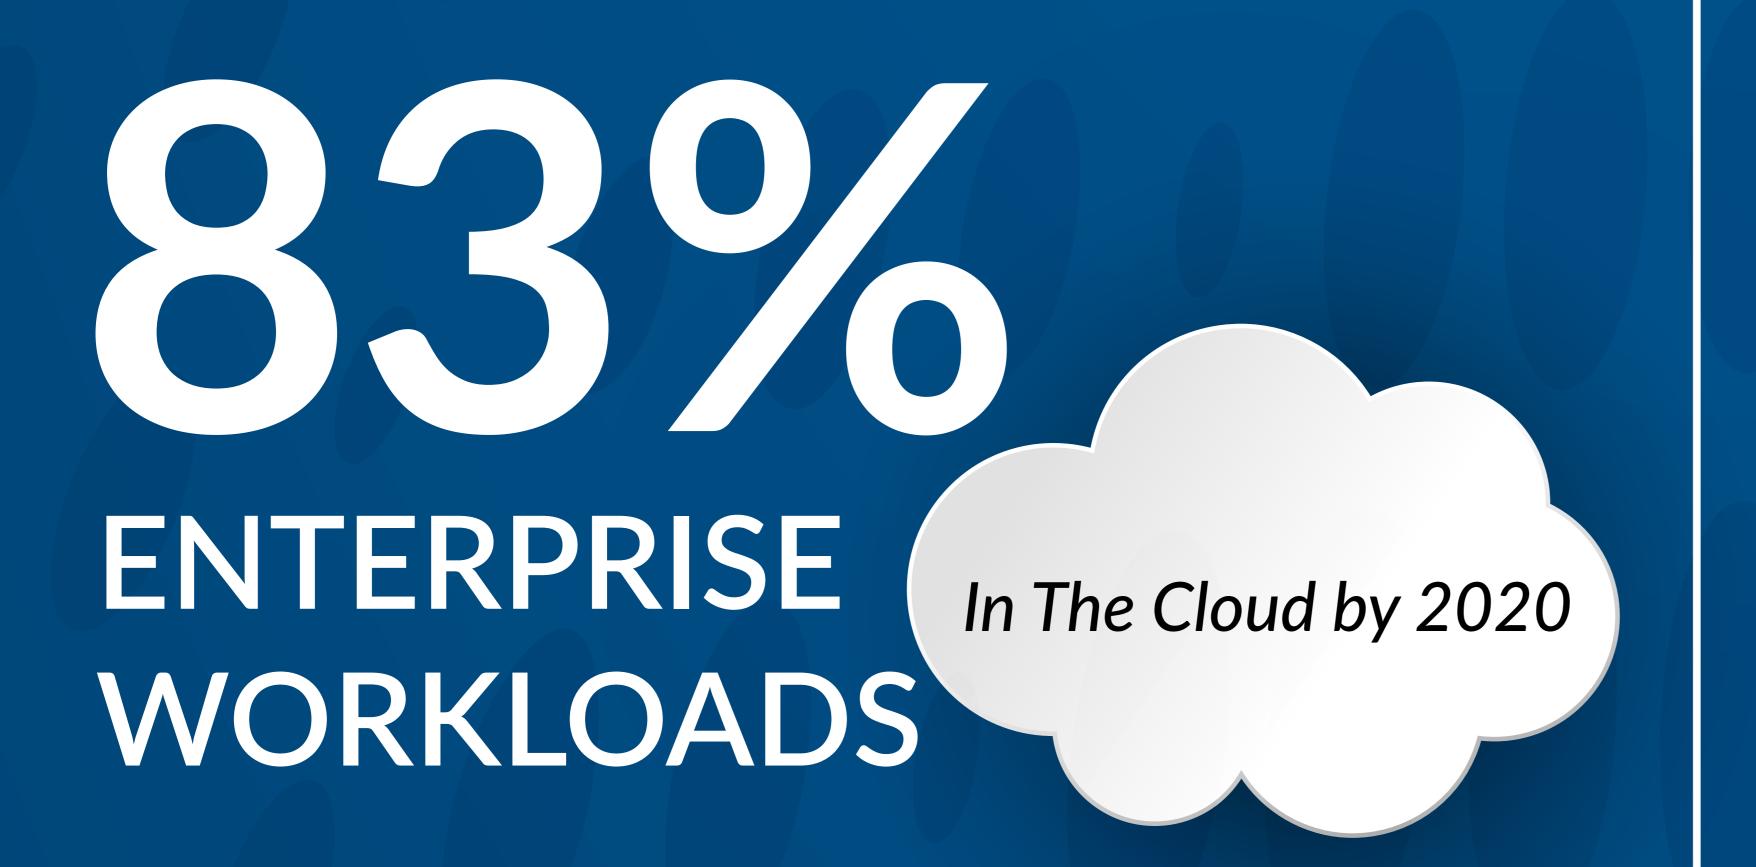

## Economical

Avoid ongoing escalating costs in IT infrastructure; run the software from existing devices.

OOJ/O DIGITALLY TRANSFORMING ENTERPRISES

Digitally transforming the enterprise is the leading factor driving greater public cloud adoption today.

Forbes. January 2018.
