

LEARNING NEW SOFTWARE CAN BE HARD ENOUGH.

Why add another barrier with an interface that's not in a user's native language?

Shorten the learning curve and quickly gain value from your investment **with localized versions of aspenONE**

engineering, manufacturing and supply chain management software.

AspenTech partners with native speakers with technical expertise to deliver accurate, high-quality translations.

V11

Localized versions are available at the same time as general release.

ENGINEERING

Aspen Plus, Aspen HYSYS, Aspen Online

“Aspen Plus V9.0 in Russian allowed us to quickly solve production problems and simulate technological processes achieving the desired result in a shorter time... It's really important for us to have the latest localized version of the AspenTech software, which allows users to learn faster and use all the tools to their full potential.”

Tatiana Pivkina

Lead Process Engineer, Operations Design Department

Novokuibyshevsk Petrochemical Company
